Global Manufacturing Corporation Who Provide Protective Coatings for Any & Every Surface

Rust-Oleum is a worldwide leader in protective paints and coatings for both home and industry. With domestic and international operations along with over 1,500 employees and in excess of \$1 billion in revenues

Rust-Oleum uses Neptune Software to optimize warehouse operations and provide operators a mobile solution based on SAP WM

PROJECT Details

GOALS & CHALLENGES

- Create paperless transactions
- Simplify user training and duration
- Have a system driven warehouse, one not people dependent for product knowledge
- Achieve high user satisfaction ratings
- Create a decoupled architecture to be able to handle Wi-Fi and power disruptions
- Create apps that allow the existing IT team to scale up quickly and develop new solutions fast

RESULTS

- Improved paperless warehouse operations
 - All warehouse functions – incoming GR, put-away, replenishment, picking, packing and shipping
- Automatic task pushing to warehouse users instead of manual assignment
- An end-to-end overview of warehouse operations sent to admins and supervisors
- Increased daily GBP from ~19K to ~33K

TECHNOLOGY DETAILS

- 130 Neptune Software users
- Hybrid Fiori-App for Zebra-Android mobile devices with barcode display on devices, auto refresh for monitors, task counts on tiles, customized login page, and custom refresh rate

EFFORT, DURATION & TIMELINE

- Ca. 200 MD (internal + external effort) including backend programming
- Duration: 4 months
- Partner: Mygo Consulting
