

CUSTOMER Fact Sheet

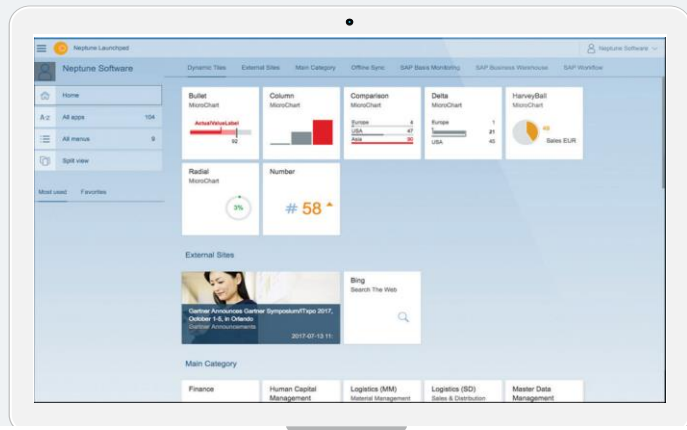

OIL & GAS

Systems Operator for Gas Pipelines

Open Grid Europe provides commercial, technical and IT services to support its pipeline transmission network, and offers pipeline design, construction, operation, quality control, and management services to third-party companies. With a 12.000 km network of pipelines OGE is the biggest pipeline-operator in Germany

Open Grid Europe used Neptune Software to replace the SAP Enterprise Portal with a Neptune Software Fiori Launchpad

PROJECT Details
