

Discover how you can easily digitize your **Manufacturing Processes with No-Code/Low-Code** and increase productivity to keep up to industry standards.

Why Neptune?

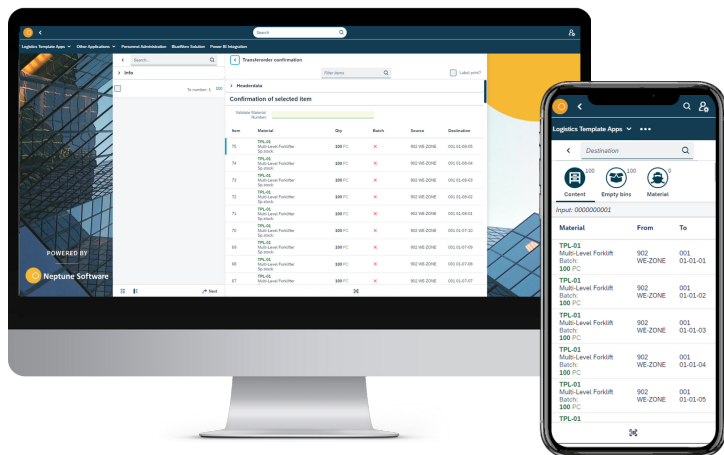

Neptune Software's enterprise app development platform [Neptune DXP] helps you **bridge the gap towards industry-leading business solutions** – easier & faster, with a better ROI and absolutely future proof!

We make it **simple and cost-effective for IT professionals & business key user** to build the apps they need in-house, streamline their operations and optimize user interfaces. Our platform saves you time and money on development, integration, and operations, allowing you to create a seamless digital experience for your employees and customers. With our expertise in manufacturing industry needs, we provide **unmatched time-to-market**, with quality business apps being **built 10x faster**. The **lowest TCO for No-Code/Low-Code platforms**, averaging 50+% cheaper than alternative solutions!

SAP Challenges?

SAP software can be complex and time-consuming, making it difficult to optimize manufacturing workflows. Neptune DXP offers a **no-code/low-code solution that simplifies SAP workflows and processes across all manufacturing areas**. Enable rapid application development that allows users to create sophisticated, fully-featured apps **in a fraction of the time it would take using traditional and SAP standard development** methods and tools. Boost productivity without the need for extensive coding knowledge. Neptune DXP is the **only low-code app development platform that is certified by SAP** for Netweaver, HANA, S/4HANA and SAP BTP.

Our vision to make app development easier for the manufacturing industry

- Vendor Portal Solutions
- Asset Maintenance made Easy
- Service Requests at your Fingertips
- Shift and Handover Notes
- Intelligence for Management Teams
