

CUSTOMER Fact Sheet

ENGINEERING

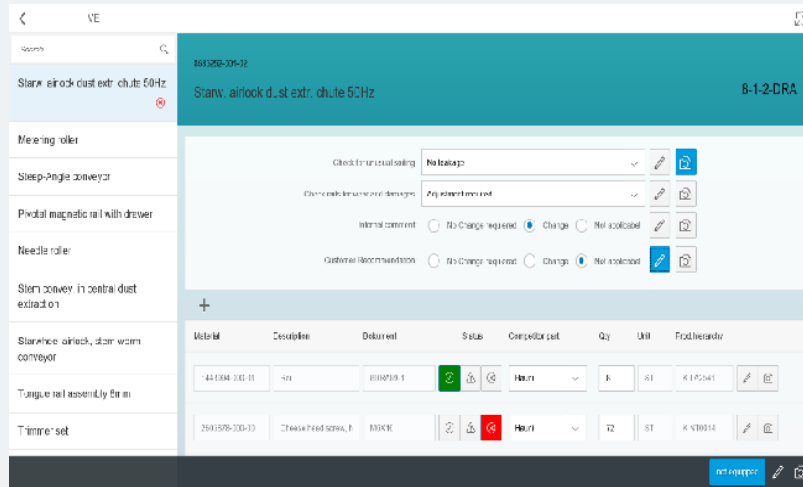

HAUNI
KÖRBER SOLUTIONS

Market Leader in Mechanical Engineering

Hauni Maschinenbau GmbH is an international German manufacturer of machines and systems for the tobacco industry and cigarette machines

Hauni Maschinenbau GmbH uses Neptune Software to optimize the machine inspection and to equip the service technicians with a mobile solution based on SAP CS

PROJECT Details

GOALS & CHALLENGES

- Reduce paper-based work
- Replace Excel based documentation of inspection results
- Provide better guidance for the Service Technicians through the inspection process
- Accelerate the Retrofit Process and the downstream commercial processes
- Automatically transfer captured data to the SAP backend

RESULTS

- Fiori Application for inspection of machines
- Dynamic generation of checklists based on the equipment and inspection step
- Integration of native hardware functionality such as camera, barcode scanner, and capturing signatures
- Generates inspection reports as PDF documents
- Allows editing of pictures within the application, redlining and comments

TECHNOLOGY DETAILS

- 350 Neptune Software Users
- SAP CS & Neptune Software based UI5 mobile apps
- Hybrid Fiori-App for Windows-Laptop with picture editor and signature function

EFFORT, DURATION & TIMELINE

- Duration: 4 Month
- Ca. 100 MD (internal + external effort) including backend programming
- Partner: SD&C Consulting GmbH
