

# CUSTOMER Fact Sheet

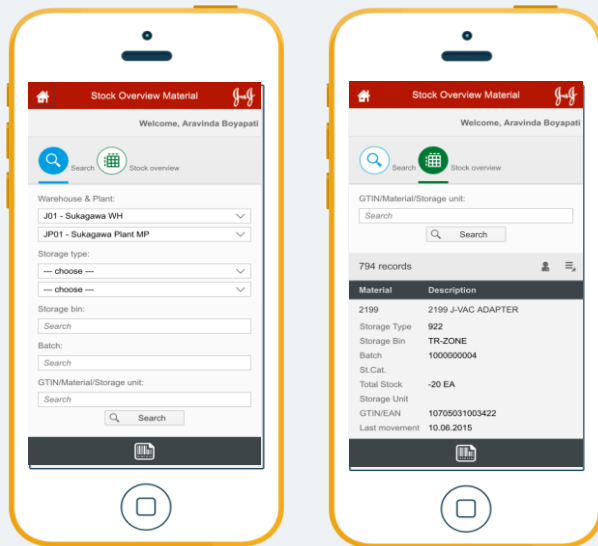

## HEALTHCARE

The World's Largest, Most Diverse Medical Devices and Diagnostics Company

Johnson & Johnson is the largest and most broadly based healthcare company in the world producing life-changing breakthroughs every day

Johnson & Johnson uses the Neptune DX Platform across their entire IT real estate and is core to their UX strategy

## PROJECT Details

### GOALS & CHALLENGES

- Wanted a development platform that would support integration and application development across their entire IT estate
- Wanted a solution that was future proof and would support newer versions of SAP
- Wanted to integrate emerging technologies like IoT
- Had to provide mobile capabilities and offline capabilities

### RESULTS

- Global ITS replacement using Neptune Software for warehouse management
- Provided offline capabilities around plant maintenance
- Introduced advanced tracing and tracking capabilities
- Built solutions around blockchain and IoT
- Utilized existing skillsets and development resource

### TECHNOLOGY DETAILS

- 130,000 Neptune Software Users
- SAP Desktop and Mobile

### EFFORT, DURATION & TIMELINE

- Delivered by their own IT team
- Project ongoing
